MILWAUKEE: Thursday Morning, March 19. For Chief Justice of the Supreme Court,

PROPRIETORS.
Under the Name and First of Rufus King & Co.

EDWARD V. WHITON ELECTION, TUESDAY, APRIL 7 Republicanism in the Granite State. The telegraph brings us brief but gratifying re turns from the New Hampshire election. The Governor and Legislature are Republicans, and the three Republican Congressmen are re-elected.

Well done for the old Granite State! The New Swamp Land Law. We publish to day a very important act, which

has just taken effect, having been published by the State Printer day before yesterday. It will be seen that besides the provisions relation to pre-emptors, the minimum price at which the lands will be hereafter offered at public sales is to be \$1,25 instead of \$5,00.

Trade with the West and North-West Early in the winter we took occasion to call the attention of our wholesale dealers to the policy of taking active measures for securing their share of the vart trade of the West and Northwest, which is open to them this Spring by the completion of the Milwaukee and Mississippi R. R. to Prairie du Chien. Now that the time appreaches, we fear that sufficient has not yet been done for the end proposed, though we know that many of our merchants have looked out for their interests. Let us bring our Western friends here to trade, and provide abundant stocks for them to select from, and the thing is done, for ew take it that the dealers of Milwaukee will not allow themselves to be undersold by anybody doing business on honest principles. The prize is great, and the exertion to securout should be

The Border Ruffian Legislature of Kansas, which was imposed upon the people of that Ter ritory by the votes of Missouri Squatters, passed at their recent session, an act defining the crime of "Rebellion" and making it punishable with DEATH. This extraordinary statute runs as fol-

An Acr to Punish Rebellion.

An Acr to Funish Rebellion.

Be it enacted by the Governor and Legislative Assembly of Kansas:

Section 1. If two or more persons shall combine, by force, to usure the Government of the Territory, or to overturn the same, or to interfere forcibly with the administration of the Government, or any department thereby, evidenced by forcible attempts within the Territory to accomplise such purpose, the person so offending shall be deemed guilty of Repetition, and, shall suffer death, or confinement and bard labor.

§ 2. If twolve or more persons shall conspire to levy war against any part of the people of this. Territory they shall be deemed guilty of Reserving, and on conviction shall suffer death, or confinement and hard labor.

§ 3. If two or more persons shall conspire to remove forcibly out of this Territory, or from their

remove forcibly out of this Territory, or from their habitations, any portion of the people of this Territory evidenced by the taking arms and assembling to accomplish such purpose, they shall be deemed guilty of Rebellion and punished as any the last section specified. § 4. Confinement and hard labor as provided for in this set shall not exceed twenty years.

This act to take effect and be in force from and after its passage. No one can doubt the sim and intent of this Statute. It is an infernal contrivance, worthy of

its Pro-Slavery origin, against the lives and-liberties of the Free State men in Kansas. "Resistance" of any sort to the Pro-Slavory officialsand there are none others in Kansas is to be construed as ." Rebellion" and punished either with death, or confinement and hard labor for not exceeding thenty years ! The Republican House of Representatives

during the recent session of Congress, passod a bill repudiating the begus Legislature of Kansas and repealing one and all of their infamous enactments. The Domocratic Senate reject this bill, thus landing their sanction to the Border Ruffiane Laws and Legislature. Mr. Be-CHANAN, the new President, pledged himself in his Inaugural to give "Squatter" Sovereignty" in Kansas as interpreted by Missouri interlopers and administered by pro-Slavery function nacsfull swing. The promised removal of Judge Jeffries Lecompto is indefinitely postnoned.-And the Supreme Court of the United States, have just solemnly decided that SLAVERY has equal rights with Fazznow, in every part of our Republic, and that Congress' has no power, or authority to arrest its progress, or forbid its introduction, in any portion of the Federal Territory. Such are the auspices under which the administration of JANES BUCHANAN opensupon the country. That it is nowerless of itself to check the growth of the political cancer which threatens the vitality of our Free Republic, mus be obvious to all. But there is yet hope that the Freemen of the North, outraged by the 're peated and ever increasing aggressions and exsctions of the Slave Power, and cepccially indignant at the recent Femoval of the ancient landmarks by the flat of a pro-Slavery Court will unite together more closely and more zen lously then ever, and oppose a stern, unvielding inflexible opposition to every form and phase of Slavery propagoodlem. Thus only can we stop the advance of this moneter evil and make our Republic, what our futhers designed, a home for

Any resident of the State of Wisconsin who at the date of the pessage of this act resides upon, or is in the actual occupancy of any of the swamp and overflowed lands in this State, and has improvements thereon, to the rake of ten dollars per forty acres and used for agricultural purposes, shall have the right to purchase said lands at the minimum price of one dollar and twenty-five cents per acre, whenever the same shall be offered for sale, upon the terms and conditions prescribed in chapter 84 of the session laws of 1856, and the provisions of this act shall extend to all Islands in the Mississippi liery, situated about half a mile from the Wombwell and the proxishing Railway. The pit, which is about 220 yards deep, belongs to Taywhich is about 220 yards deep, belongs to Paywhich is about 220 yards deep, belongs to the which is about 220 yards deep, belongs to East about 220 yards deep, belongs to Paywhich about 220 yards deep, belongs to Bay and is worked by separate shitts of Impu seend was blown up the shaft and lodged in the gearing above the pit-mouth. Numbers of men from neighboring collieries flocked to render assistance, and up to 7 o'clock 16 men had been drawn up aire, some of them most seriously injured, this left 143 men remaining in the pit to almost certain death. The interior of the pit was set on fire by the explosion, and the flames have spread with such rapidity as, it is feared, to cut off all chance of reaching that part of the pit where the 142 men are apposed to be.—Some idea of the farful nature of the fire may be gathered when we state that the flames ascending up the air-shaft, 220 yards deep reach more than 20 yards above the top, illuminating the country for a distance around. The cause of the explosion is as yet involved.

The overlooker states that when he were round the pit before the day men descendwend round the pit before the day men descended this morning all was then pefectly safe.

The fire began to blize from the air-shaft about 4 o'clock, and sens up an immense number of sparks and pieces of burning wood, which had a most terrible appearance. About 7 o'clock the proprietors and managers of the pit had a conference, and decisted to stop up the mouths of the working shafts with planks and earth, as the only way of stopping the draught up the air miavant subduing the fire. This plan was attended with partial success, and about \$\frac{1}{2}\$ o'clock the flame ceased to ascend above the surface of the m confirmation of sain act, as soon as proceeding after the patents are received.

Section 3 of chapter 31, of General Laws of 1855, is hereby revised and extended to all cases contemplated by this act; and any claimant of unsurveyed or unpatental lands may describe the same by meter and bounds, carefully defined, and in addition to the certificate referred to in section to fine act, need flame ceased to ascend above the surface of the

Farmers, Saw Mill owners, Livery Stable men and all others feeding stock of any kind are invited to examine the merits and superior advantages of the above mill.

The Young America will grind as much corn in the cob, shelled own, cats; barley, and all other grains for stock as any mill of the same size and with much less draft.

What we claim is great strongth, durability and simplicity, being so simple that a child, can learn to grind with author. pholity, being so simple that a child, can learn to grind with safety.

In the next we claim the small expense to renew the grinding parts of the mill, and the case with which the grinders are put on the mill, at a cost of not over three deliers, which makes it superior and more economics than any other mill. The grinding parts of the above mill are made of the hardest of east iron, as hard in fact as east satel can be tempered. Each set will grind from a cast set of grinders on the mill, an extra set will be sont with each mill sold, making it equal to two common mills. When found necessary to change the grinders, almost any one can do it in twenty minutes.

As a proof of the estimation in which the Young Americals beld in Ohlo, we would state that during the fall, whiter and spring of 1853-56, 2500 were made and sold in Ohlo, at Zanawille, by Douglas, Smith & Oo., Hall & Allen & Many Pailadelphia.

At the time there is not less than 200 wein sold every Patindolphia.
